~~11~~ Innocent III was pope. Under him the medieval papacy reached the summit of its power & influence. In an assertion of temporal powers, he forced King John of England to become his vassal and had Emperor Otto deposed in favor of Frederick II. He initiated the 4th Crusade (1202) and supported the Crusade against the ALBIGENOISES (1208).

He provided me the 4th Johnson course
(1215), evaluation of the entire medical
papers.
